

McCarthy Order Buying

McCarthy Order Buying was formed by Mick and Pat McCarthy in 1974 to help merchandise cattle, mostly stocker feeder cattle, but they have dealt in other classes of cattle.

They had separate customers and usually separate orders. Another way to describe the business is they are the middle man between cattle owners (ranchers, feeders, farmers, etc.) who want to sell to customers who want to buy cattle as well.

The amount of cattle purchased may range from only a few head to a whole heard, maybe 1000 or more. McCarthy's get the orders filled either at an auction barn or direct from the owners in the country. These gentlemen travel somewhere in the neighborhood of 200 miles a trip per day to either buy or look at possible purchase. In the year of 2008, Pat McCarthy has retired and the ownership has returned to Mick.

If McCarthy Order Buying can help you either sell your cattle or you happen to need to purchase some please contact them by calling 308-762-2153. Thank you.
